## RIISS00054 and RIISS00055 Combination

### Work Zone Traffic Control – Traffic Controller Skill Set

### Work Zone Traffic Control - Implement Traffic Control Guidance Plan Skill Set

These traffic control training courses are designed for personnel who are required to stop and slow traffic, set up traffic control, traffic management, and traffic guidance schemes within a worksite. Implementation of a traffic management plan allows the qualification holder to deploy a work site, monitor traffic control and safety of the worksite personnel, and remove signs and devices at the completion of work.
